THE OWNER OF THIS LANE SWEETRAET CHEST IS ENTITLED TO A **\$1,000 GUARANTY AGAINST MOTH DAMAGE**

If you will fully fill out the mailing card below and return it to us within 30 days of your purchase of this Lane Cedar Chest, The Lane Company will guarantee its cost to repair moth damage in the amount specified above. This guaranty will be effective for three years from date of purchase and will be issued by The Educators' Liability Assurance Corp., Ltd., Boston, Mass. The guaranty is given without additional cost.

Promptly upon our receipt of this mailing card if guaranteed within 30 days of date of purchase a guaranty against moth damage will be forwarded to you.

Lane is the only manufacturer, America's finest cedar chest. Research conducted by

Arthur D. Little, Inc., Cambridge, Mass., America's leading commercial firm, proves that a cedar storage chest must be "seven-tight" to give maximum moth protection.

This chest is made of 1 1/2-inch red cedar in accordance with U. S. Government recommendations.

By the makers of

Lane

chests, tables, dining room and bedroom furniture

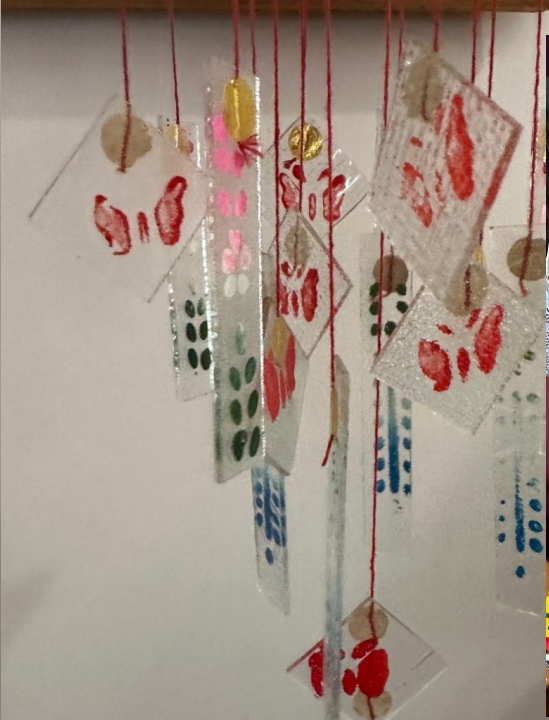

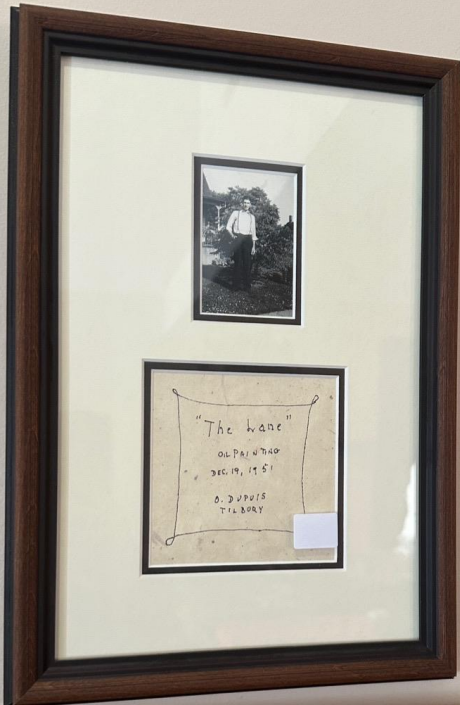

There are many things in Life that will catch your eye, but only a few will catch your Heart pursue those.

**POINTS TO REMEMBER
ABOUT YOUR
LANE CEDAR CHEST**

With reasonable care your Lane Chest will last a lifetime. Corners are mitered and double-locked. Woods are the finest obtainable, and they are finished in "Kaydura", a durable synthetic finish that is resistant to scratches, heat, and stains from water, alcohol, etc.

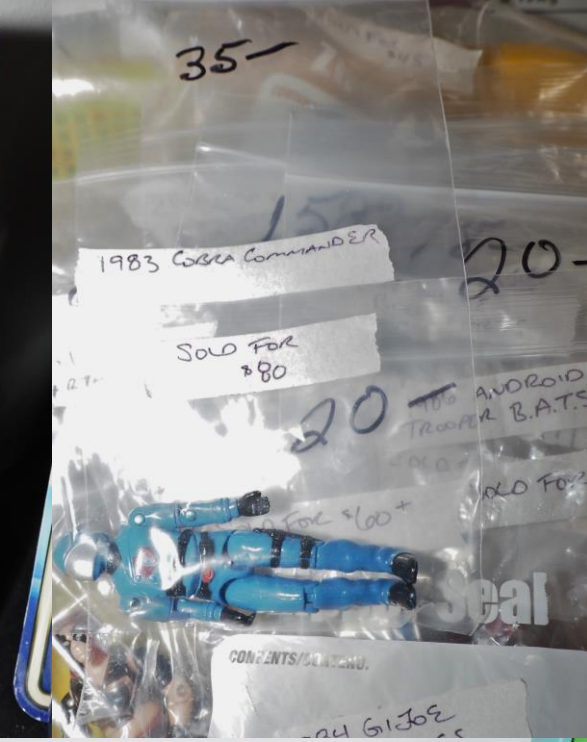

Taking care of a Lane Chest is easy. Keep it in a dry place out of constant sunlight. No polish is needed. Clean with a damp cloth, using a mild soap if necessary. The lock is airtight, therefore do not oil it.

Storing things in a Lane is easy too, but be sure to inspect and brush each article thoroughly and, when possible, sun it awhile before putting in the chest.

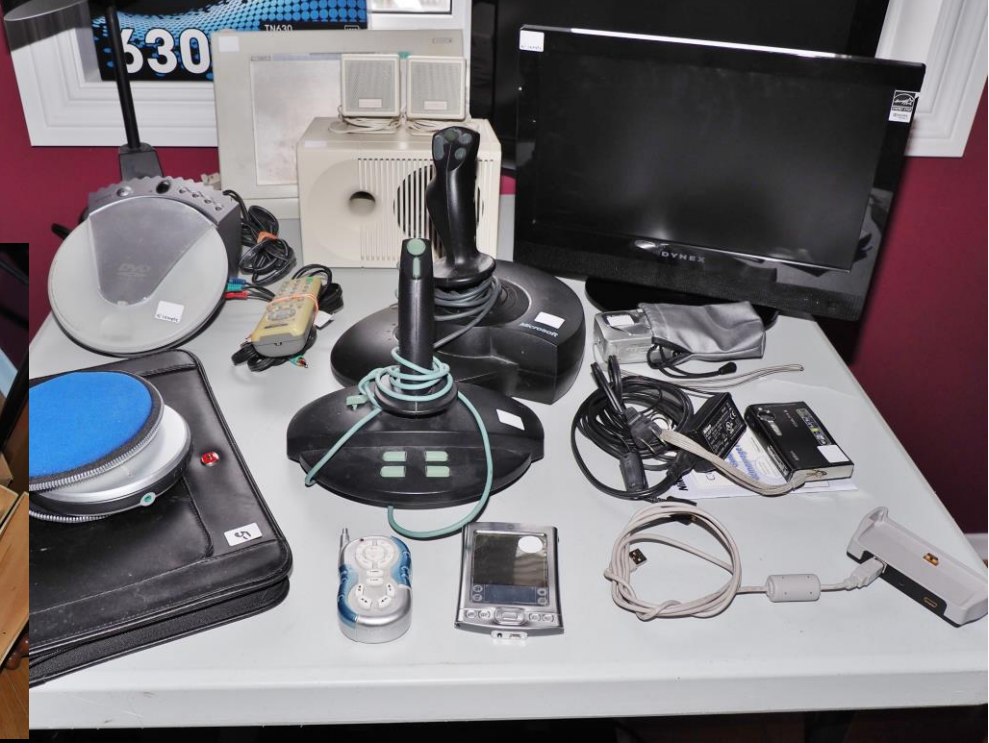

CAUTION — Do not wrap clothing in newspapers or put any printed matter or anything made of rubber, plastic or metal in the chest. That's because these articles absorb or attract the cedar oils and keep them from spreading easily throughout the chest, thus possibly affecting fabrics in contact with them.
