# PREFAB TYPES

There are four types of prefabs with various edge finishes. See the diagram and descriptions below.

## Peninsula

Peninsulas are perfect for dividing space between rooms with a bar seating area. Their edges are finished on two long sides and one short side.

## Island

Island prefabs are finished on all four sides. They won't need to go against a wall and can stand alone in the kitchen.

## Vanity

Vanity prefabs are a smaller version of our standard prefab. Their edges are finished on two short sides and one long side. They're great for bathrooms and laundry rooms that need that extra sink.

## Standard Prefabs

Standard prefabs are finished on one long edge and two short edges. This prefab is our most common. With just a small amount of fabrication to fit your sink or stove they're ready to go right on your cabinets as your kitchen countertop.

# EDGE FINISHES

Edge finish will be determined by the thickness and/or type of prefab slab you choose. 2cm Natural Stone Prefabs come in a *Laminated Flat Edge*. 3cm Natural Stone Prefabs come in *Flat Edge*. Our 2cm Q™ Premium Natural Quartz slabs and Natural Stone Vanities come in a *Laminated Flat Edge*.

### 2cm Laminated Flat Edge

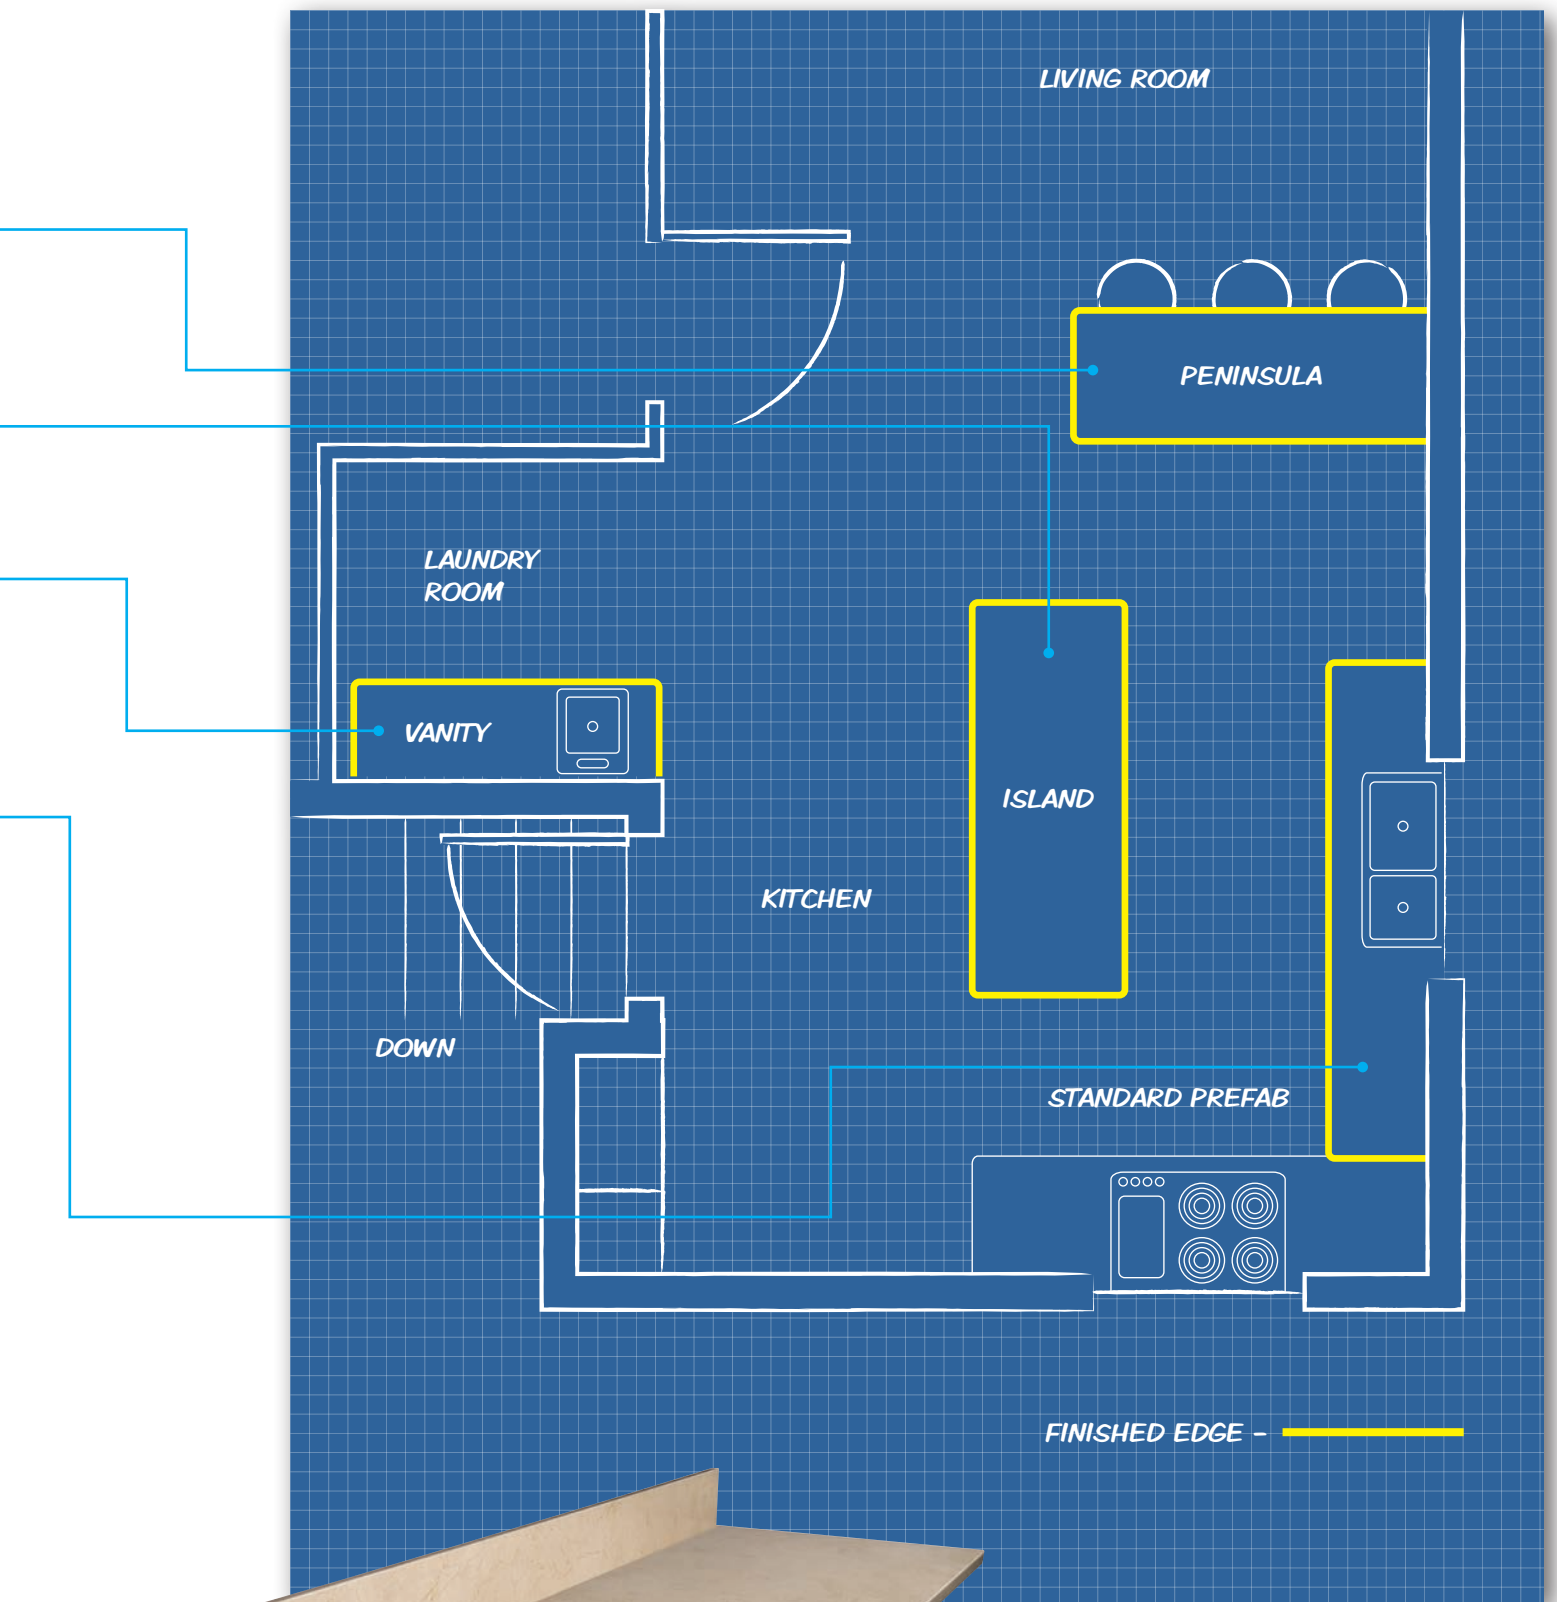

Q™ Standard Prefab size: 112x26  
Vanity Size: 84x26

### 3cm Flat Edge

Standard Prefab size:  
112x26

*Crema MarFil prefab with back splash shown here in 2cm Laminated Flat Edge.*

# Cut to Size

## The “*Cut To Size*” Pre Fab Program

We have the resources available to handle large projects needing multiple pre fabricated tops within similar sizes and edge finishes. We are experienced in working projects with industries like:

- **Hospitality** – Marriott Hotels, W Hotels, Mandalay Bay Resort and Casino
- **Retail** – Peet’s Coffee & Tea, Forever 21
- **Educational** – USC (University of Southern California), University of Nevada

NSG will handle your “*Cut To Size*” Pre Fab Program from start to finish ensuring top level efficiency, proper production, quality assurance, shipment planning, and value pricing. We maintain resources and partnerships across the globe to handle small to large scale projects; and your work will be professionally managed and supervised through our project management experts.
