

# DISINFECTING SERVICES

SERVING ALL OF NORTHERN COLORADO

## PROACTIVE AND EMERGENCY DISINFECTING

- A proactive approach to give your employees & tenants peace of mind as they return to the workplace
- Cold and flu season is coming. Reduce the risk of your employees & tenants contracting infectious diseases, like COVID-19, at work
- Better Coverage - using electrostatic sprayer technology to apply the disinfectant allows for better adherence in hard to reach areas, as compared to other spraying methods. This technology charges the disinfectant solution when sprayed, creating particles that envelop surfaces, allowing even application in exposed and hidden areas, with no wiping required.

## PRICING

Service Frequency	Trip Charge	Per Square Foot
One-Time	\$75.00 <i>*\$175.00 for trips N. of Wellington or S. of Loveland</i>	\$0.09/SF**

*\* Recurring Service is considered a commitment to at least 4 disinfecting sessions.*

*\*\* Gross SF of premises*

## OUR PROCESS

Our technicians use a top of the line Electrostatic Sprayer that emits an EPA hospital grade approved disinfectant solution, which is safe to use regularly in offices, schools, stores, restaurants, and homes as a non hazardous material. By using electrostatics, you have full disinfectant coverage of all easy and hard to reach surfaces that repels and kills droplets of like charges, such as droplets containing infectious disease, in just minutes. We are here to help you reopen and stay open! Our disinfectants used have been recommended and approved by the EPA as an effective disinfectant that kills 99.999% of bacteria and viruses, including COVID-19.

*\*prior to disinfection, we require the space to be properly cleaned. Need a janitorial services referral? Just let us know and we can connect you!*
