

Concrete & Asphalt Services

COMMERCIAL | FEDERAL | DATA CENTERS | CIVIL INFRASTRUCTURE

Led by an owner with 26 years of construction and safety experience, PCS provides skilled personnel, coordinated crews, and bids for defined scopes of work.

Concrete & Foundations

Building, equipment, and structural foundations; slabs, footings, grade beams, pads, and walls. Site concrete includes flatwork, sidewalks, curbs, gutters, and loading areas.

Asphalt & Pavement

Paving, milling, resurfacing, overlays, and repairs for parking lots, access roads, and facility pavements. Striping coordination and drainage support are aligned with the project scope.

Civil Infrastructure Support

Support for levee and cofferdam scopes, coordinated with your project team, contract requirements, and defined responsibilities.

Two Ways to Work With PCS

Staff Your Project

Request individual craft workers or coordinated crews matched to your scope and schedule.

Request a Project Bid

Submit plans, specifications, quantities, location, and schedule for a defined-scope bid.

From Mobilization Through Closeout

Safety, quality control, workforce coordination, scheduling, project documentation, and closeout support are aligned with your defined scope.

LET'S DISCUSS YOUR NEXT PROJECT
